

The red line shows where the Arctic starts. It is called the Arctic Circle because our world is a sphere shape.

Our world is a sphere. We call it a globe. The Arctic Circle is at the top of the globe.

The 7 continents

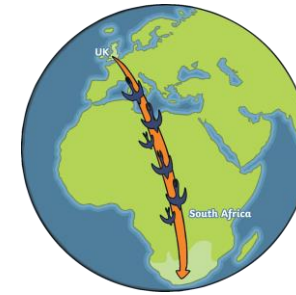

Oceans of the world

Migration
Each year, some groups of animals travel from one place to another. This is called migration. Their journeys may be very long or quite short and happen at

certain times in the year, usually when the seasons change.

Giant Pandas

- Giant pandas look like bears.
- They live in the mountains in China.
- They like to live alone.
